

1001 Rust Penetrant

Meets MIL-PRF-680B Type II

Quality products start with quality ingredients, which is why Armite uses Shell Oil Company as one of its main suppliers. Our 1001 Rust Penetrant is a hydrocarbon-based solvent and is used as detergents and cleaners for painted and unpainted metal parts. The compatibility between existing paints and solvents should be verified prior to use.

DISSOLVES RUST
FREES SEIZED PARTS
ALLOWS EASE OF DISASSEMBLY

DESCRIPTION

For use on frozen or rusted fittings, bolts, or nuts. It is recommended that this solvent be used with appropriate recalculated parts washer. MIL-PRF-680B Type II (low odor with high flash point) is intended for use where a solvent with a higher flash point is desired. When this solvent is used indoors, proper ventilation should be sufficient to prevent the accumulation of vapors above the allowable exposure limits.

ADDITIONAL INFO

Available in
8 oz F-style can

Typical Characteristics:
Physical State: Liquid
Flash Point: 144°F
Density: 6.68 lb/gal
% VOC: 100%
Specific Gravity: 0.80

Note: Products listed are suggestions. The information on this site will not replace your testing and evaluation procedures. Ultimate product selection should be based on your test results and the specific performance requirements.
