

Copper Based Anti-Seize Thread Compound

Commercial Grade

Armite's CP-2000 offers protection against seizing, galling, and corrosion for all kinds of steel, except stainless. As a highly conductive metal, this copper based anti-seize is a go-to for electricians.

PREVENTS SEIZING and GALLING
HIGHLY CONDUCTIVE
PREVENTS OXIDATION

DESCRIPTION

Not for use on stainless steel. Copper and stainless steel create intercrystalline corrosion, which can make stainless steel parts crack and break.

ADDITIONAL INFO

Available in

8 oz. brush top can, 1 lb. plain top can

Typical Characteristics:

Color: Reddish
Physical State: Paste
Specific Gravity: 8.5
Flash Point: 404°F
Melting Point: 600°F
Service Range: -10°F to +2000°F

Note: Products listed are suggestions. The information on this site will not replace your testing and evaluation procedures. Ultimate product selection should be based on your test results and the specific performance requirements.
