

Technical Petrolatum

VV-P-236A

This petrolatum covered by this specification is intended for use as a light-grade lubricating grease. It may be used as a constituent in certain types of rust preventative compounds.

REDUCES FRICTION
PREVENTS CORROSION
REDUCES TORQUE

DESCRIPTION

VV-P-236 is a light-grade lubricating grease of superior pharmaceutical-grade quality. However, it is not recommended for use as a lubricant in heavily loaded or hot running bearings.

ADDITIONAL INFO

Available in

1 lb. can, 20 lb. pail, 35 lb pail

Typical Characteristics:

Color: Light Amber
Physical State: Paste
Penetration @ 77°F: 190 typical
Specific Gravity: 0.84
Kinematic Viscosity @ 212°F: 14.0
Saybolt Viscosity @ 212°F: 71
Drop Point Melt: 120°F
Flash Point: >480°F

Note: Products listed are suggestions. The information on this site will not replace your testing and evaluation procedures. Ultimate product selection should be based on your test results and the specific performance requirements.
